

SOUTHERN CALIFORNIA REGIONAL RAIL AUTHORITY

metrolinktrains.com/meeting

ITEM ID: 2020-326-0

TRANSMITTAL DATE: April 2, 2021

MEETING DATE: April 23, 2021

TO: Board of Directors

FROM: Stephanie Wiggins, Chief Executive Officer

SUBJECT: Request for Approval to Transmit Proposed FY2021-22 (FY22)

Operating and Capital Budget to Member Agencies

Issue

The Authority is required under the Joint Powers Agreement to provide to its Member Agencies, on or before May 1 of each year, a Proposed Budget for the coming fiscal year (which begins July 1) for individual agency consideration and approval.

Recommendation

AUDIT AND FINANCE COMMITTEE RECOMMENDED (5-0) the Board transmit the Proposed Fiscal Year 2021- 22 (FY22) Budget to its Member Agencies no later than May 1 for their consideration and adoption as required in the Joint Powers Agreement.

Strategic Commitment

This report aligns with the Strategic Business Plan commitments of:

- Safety is Foundational: We will stay on the leading edge by deploying new technologies and processes to enhance the safety and security of our riders, our fellow employees, and the communities we serve.
- Customers Are Our Business: We respect and value our customers, putting them at the heart of all we do, and work hard to attract and retain new customers by understanding their needs and finding new and innovative ways to bring them on board.
- Connecting and Leveraging Partnerships: We will forge new and enhanced relationships with our public and private partners to integrate and coordinate connecting services, providing residents throughout Southern California with better, seamless,

sustainable alternatives to driving.

- Modernizing Business Practices: We will improve our operational efficiency through transparency, objective metrics and streamlined governance, reducing over-reliance on subsidy while bringing our system into a state of good repair and investing in the development of our employees.
- Advancing Key Regional Goals: We will grow the role of regional rail in addressing climate change, air quality, and other pressing issues by advancing toward zero emissions, making rail a compelling alternative to single-occupant automobiles and advancing equity-focused opportunities for all communities throughout Southern California.

The FY22 Budget has been constructed to provide support to each of Metrolink's strategic goals.

Background

The FY22 budget development process began in January 2021 with a virtual Budget Kick-off Meeting attended by over 50 employees and included budgetary guidance. Budget requests were compiled and submitted by those assigned by Chiefs to process the cost centers under their remit. Budget division staff subsequently analyzed and reviewed the requests. The interim CFO than held meetings with each Chief, and, subsequently, the Chief Executive Officer. The primary purpose of the meetings was to consider the necessity for each budget amount requested taking into consideration such factors as:

- Funding at a level which will meet the goals of the Authority;
- Historic levels of spending;
- Current levels of spending:
- Known adjustments for the forthcoming year;
- Overarching goal of safety, fiscal sustainability and operational efficiency; and
- Consideration of the COVID-19 pandemic impact on activities and funding.

This series of internal meetings was concluded in March.

The FY22 Proposed Budget was reviewed with the Member Agency Advisory Committee (MAAC) members on March 9th, March 26th, and April 1st.

An overview of the FY22 Proposed Budget for Operations and the Capital Program detailing the Total Request for Funding was reviewed in individual conversations with each of the Member Agencies' Chief Financial Officers (CFOs) and Chief Executive Officers (CEOs) during the months of March and April 2021. During these individual meetings, substantive agreement was reached on concurrence with the Operating and Capital Program portions of the FY22 Budget as proposed.

Discussion

Foundation for FY22 Proposed Budget

The FY22 Proposed Budget provides funding to achieve the following:

- Recovery of ridership and revenue
 - Returning Commuters
 - Assistance for Low Income Riders
 - Expansion of ridership base to include ridership for entertainment, day trips, shopping.
- Continued emphasis on safe operations, with updates and maintenance of intraoperative Positive Train Control (PTC) as the centerpiece of Metrolink's efforts
- Grant funded efforts to reduce the number of trespasser injuries.
- Additional New Service on the Ventura Line
 - Service was added to provide an additional round trip each Saturday
- Investment in existing assets to maintain a state of good repair by:
 - Funding critical rehabilitation projects,
 - Improving processes to accelerate project delivery

Budget Assumptions:

Service

- Maintain 30% Service Reduction any change would be based on load factors. If service does increase due to load factors/unplanned ridership demand, the financial impact would be addressed during the Mid-Year Budget review. Only
- added service Ventura Line Saturday round trip

Revenue

Ridership Recovery Forecast Scenario 2B (see Attachment A)

Expense

- 3% Merit Pool for FY22
- No COLA for FY22
- Contractor Increases Only as Mandated by Agreements 1
- New FTE headcount (Manager II Cybersecurity)

Funding

Continued Dependency on use of COVID-19 pandemic Relief Funds

Reporting

- Monthly
- Formal Mid-Year Budget Review

Arrow Service

Will be presented as part of the Mid-Year Budget Adjustment

Operating Budget

The Operating Revenues are \$59.4M and reflect a projected net increase of \$15.9M or 36.5% from FY21. The year over year changes are detailed below in the Operating Revenues section. The Expenditures are \$253.0M and reflect a decrease of \$7.5M or 2.9% lower than FY21. Details of the year over year change are explained below in the Operating Expenditures section. The required Operating Subsidy is \$193.7M and is a decrease of \$23.3M from the FY21 Adopted Budget (see Attachment B).

The FY22 Proposed Budget Operating Statement by detailed categories compared to FY21 adopted budget, by Member Agency, by Line and historically over the last five years are included as Attachments C, D, E and F.

<u>Discussion of FY22 Proposed Budget Operating</u>

Statement Operating Revenues

Operating Revenues include Farebox, Dispatching, Maintenance-of-Way (MOW) Revenues, interest, other minor miscellaneous revenues, and are estimated to total \$59.4M for FY22, an increase of \$15.9M or 36.5% compared to the FY21 Adopted Budget.

Farebox Revenues which are the largest component of the operating revenue, are projected at \$45.2M, an increase \$18.0M or 66.5% compared to the FY21 Adopted Budget. This increase reflects the steady recovery of ridership which was so negatively impacted by the COVID-19 pandemic for all of FY21.

Dispatching and MOW revenues from the freight railroads and Amtrak are based on existing agreements at the current rate of usage. The service reductions by Amtrak passenger rail in response to the COVID-19 pandemic have negatively affected the Revenues for both Dispatching and MOW. The budget of \$2.1M for Dispatching Revenue and \$11.6M for MOW Revenue reflect decreases of \$0.3M and \$1.4M respectively as compared to the FY21 Budget. Lack of advertising, and reduced filming revenues have contributed to the \$0.5 reduction in Other Revenues.

Operating Expenditures

Operating Expenditures are presented in the following four categories: Train Operations, Maintenance-of-Way (MOW), Administration and Services, and Insurance. Comparisons are to Adjusted Budget.

The Train Operations component of the Operating budget contains those costs necessary to provide Metrolink commuter rail services across the six-county service area, which includes

the direct costs of railroad operations, equipment maintenance, required support costs, and other administrative and operating costs. The FY21 Proposed Budget for expenditures related to Train Operations includes contingency and is \$141.3M.

Ordinary MOW expenditures are those costs necessary to perform the inspections and repairs needed to ensure reliable, safe, efficient operation of trains and safety of the public. The FY22 proposed budgeted amount for expenditures related to MOW is \$47.1M.

Administration and Services include internal expenditures related to Train Operations. The FY22 Proposed Budget for expenditures related to Administration & Services is \$47.8M.

The Category of Insurance and Legal is \$16.8M for the FY22 Proposed Budget.

Overall, the total FY22 Proposed Budget for expenditures is \$253.0M, and has decreased from the FY21 Adopted Budget by \$7.5M or 2.9%. The components of this change are as described below.

- Total Train Operations have decreased by \$10.1M or 6.7%. The primary drivers of this decrease are:
 - Train Operations Services have decreased \$2.3M as the result of a new contract;
 - Equipment Maintenance decreased by \$1.1M due to efficiencies in maintenance, and reduced material for Rolling Stock repairs;
 - Fuel expense decreased by \$0.8M due to the 30% service reduction;
 - Operating Facilities Maintenance decreased by \$0.7M created by efficiencies in operation;
 - TVD Maintenance/Revenue Collection decreased by \$1.6M due to reduced ridership, lower credit card fees;
 - Amtrak Transfers decreased by \$1.0M as a function of reduced service;
 - Rail Agreements decreased by \$2.1M caused by the 30% service reduction; and
 - Special Train costs have decreased by \$0.4M as an impact of the pandemic.
- MOW has decreased by \$0.8M or 1.6% from the FY21 Adjusted Budget primarily as a result of a new Track and Signals Contract.
- Administration and Services have increased from FY21 Adjusted Budget by \$1.6M or 3.5%, The primary drivers of this increase are:
 - An increase of Labor distribution to Operations Salaries for \$2.2M, in conjunction with an increase in medical insurance benefit costs;
 - Offset by a decrease of \$0.6M in charges to Indirect Administrative costs (overhead).
 - It is noteworthy that overall total Salaries in the Operations budget have increased by only 1.1%.

- Total Insurance expense has increased by \$1.9M or 12.5% from the FY21 budget, primarily as a result of the Rail insurance market shrinking and becoming increasingly costly.
 - Property and Liability Insurance premiums are higher by \$1.8M.

Member Agency Operating Subsidy

- Member Agency subsidies are required to fund the difference between the total costs of operations and available revenues. The FY22 Proposed Budget estimates total Member Agency subsidies to equal \$193.7M, a decrease of \$23.3M, or 10.8% less than the FY21 Budget.
- The Budget Summary Comparison (Attachment B) includes a year over year comparison
 of net operating subsidy by Member Agency. In response to Member Agency requests,
 this schedule reflects the FY22 Proposed member subsidy in whole dollars which are
 required to create Member Agency Board requests.

Capital Program Budget

Rehabilitation

The FY22 Proposed Rehabilitation Budget was developed based on the Metrolink Rehabilitation Plan (MRP) which was created in fulfillment of the Transit Asset Management (TAM) requirement, and to address the Authority's State of Good Repair (SOGR) needs. The MRP addresses two critical elements:

Backlog or total cost of renovating assets to achieve a current

SOGR **SOGR** - Annual cost of keeping assets in a SOGR.

In light of the financial stress created by the COVID -19 pandemic, the FY22 budget request addresses only the SOGR or annual cost of keeping assets in a SOGR. The FY22 Proposed Budget does not address the current backlog which is estimated to be over \$500M.

The Rehabilitation authorization request for FY22 was identified as necessary investments to maintain a SOGR. These projects total \$90.4M and are presented by Member Agency and by Line in Attachment G. Grants paid directly to Metrolink cover \$26.1M of this request. The total amount requested from Member Agencies will therefore be \$64.3M.

A listing of the individual projects, their location and description are provided in Attachment H.

New Capital

The New Capital authorization request for FY22 was identified as necessary for safe and efficient rail operations. These projects total \$8.6M and are shown by Member Agency and by Line in Attachment I. Grants paid directly to Metrolink cover \$ 8.0M of this request. The total amount requested from Member Agencies will therefore be \$0.6M. The Authority is also endeavoring to secure a Grant to cover this \$0.6M.

A listing of the individual projects, their location and description are provided in Attachment J.

The FY22 Proposed Capital Program Budget request is \$99.0M by asset type as shown below:

| CAPITAL PROGRAM | FY2021-22 |
|-----------------------------------|-----------------------------|
| Facilities | \$2,946 |
| Grade Crossing | \$8,000 |
| Rolling Stock | \$3,000 |
| Structures | \$20,787 |
| Track | \$42,440 |
| Train Control | \$18,610 |
| Vehicles Total Capital Investment | \$3,250 <u>\$</u> 99,033 |
| Annual Cash Flow | \$4,952 |

Completion of the FY22 Proposed Capital Program projects are multi-year in nature. As such, the funding for the FY22 Budget requests may be viewed as each having a four-year funding commitment which would have the estimated cashflow impact over the subsequent fiscal years as shown in Attachment K.

Operating Budget Attachments

The attachments as listed below provide additional detail on the FY22 Proposed Budget for the Operating as described:

- Attachment A Ridership Recovery Forecast Scenarios
- Attachment B Budget Summary Comparison FY21 vs FY22
- Attachment C Comparative Detailed Operating Statement a detail of the Operating Revenues, Expenses and Subsidy adopted for FY19 and proposed for FY20. This attachment also shows variances between FY19 Adopted Budget and FY20 Proposed Budget in dollars and percentages
- Attachment D Budget by Member Agency
- Attachment E Budget by Line
- Attachment F Historical Actual and Budgeted Operating Statements. Actual
 Operating expense for FY17, FY18, FY19, FY20 and Adopted Operating Budget for FY21
 and Proposed Operating Budget for FY22, with a variance comparison between FY21
 Adopted Budget and FY22 Proposed Budget

Capital Program Budget Attachments

The attachments as listed below provide additional detail on the FY22 Proposed Budget for the Capital Program as described:

- Attachment G FY22 Proposed Rehabilitation by Member Agency and Line
- Attachment H FY22 Proposed Rehabilitation Projects Detail list Presents original request and funded amounts by subdivision, project category and Member Agency share.
- Attachment I FY22 Proposed New Capital by Member Agency and Line
- Attachment J FY22 Proposed New Capital Projects Detail list Presents original request and funded amounts by subdivision, project category and Member Agency share.
- Attachment K FY22 Proposed Capital Program Cashflow

Budget Impact

This report and the transmittal of the Proposed FY22 Budget has no impact on the Budget.

Alternatives Considered

The Committee may recommend the transmission of the FY22 Budget with specific modifications. Staff does not recommend this approach as the Member Agency CEO's have provided general concurrence with the proposed subsidy amounts.

Next Steps

April – June, 2021 Staff present at Member Agencies' Committee and Board meetings as may be requested

June 11, 2021 FY22 Proposed Budget to AFCOM for recommendation to Adopt

June 25, 2021 FY22 Proposed Budget to Metrolink Board for Adoption

Prepared by: Christine J. Wilson, Senior Manager, Finance

Approved by: Arnold Hackett, Interim Chief Financial Officer

Attachment(s)

Attachment A - Ridership Recovery Forecast Scenarios

Attachment B - Budget Summary Comparison FY21 vs FY22

Attachment C - Comparative Detailed Operating Statement FY21 vs FY22

Attachment D - Budget by Member Agency

Attachment E - Budget by Line

Attachment F - Historical Budget Comparison

Attachment G - FY22 Proposed Rehab by MA & Line

Attachment H - FY22 Proposed Rehabilitation Project list

Attachment I - FY22 Proposed New Capital by MA & Line

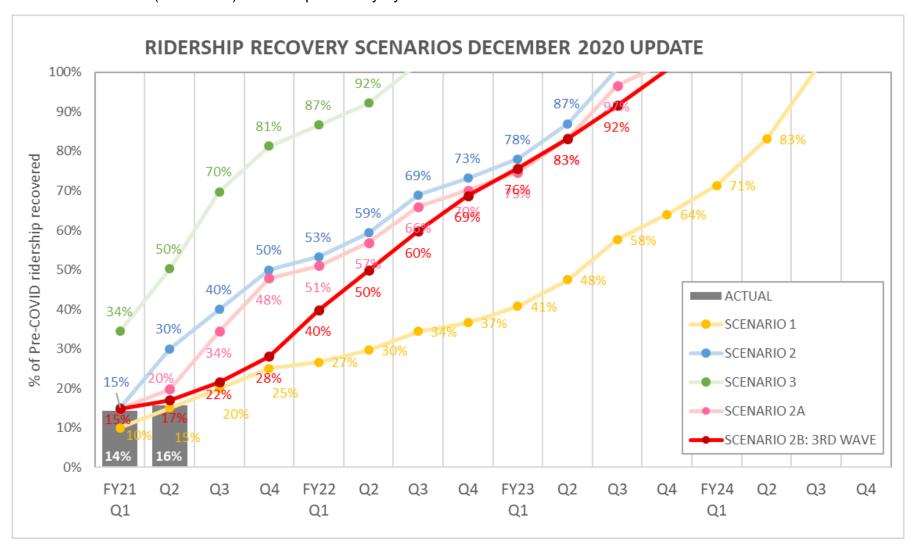

Attachment J - FY22 Proposed New Capital Project list

Attachment K - FY22 Proposed Capital Program Cashflow

Ridership Recovery Forecast Scenarios

Planning Scenarios:

- 1 Muted Recovery (Worst Case): Major economic downturn. Ridership recovery prolonged until FY24 Q3.
- 2 Recession (Medium Case): Medical crisis triggers recession. Ridership recovery by FY23 Q3.
- 2A Surge (Adjusted Medium Case): Surge in infections delays ridership recovery to FY23 Q4.
- 2B 3rd Wave (Adjusted Medium 2A Case): Surge in infections delays ridership recovery to FY23 Q4.
- 3 No Recession (Best Case): Ridership recovery by FY22 Q3.

PROJECT: SYSTEMWIDE TRACK REHABILITATION

SCOPE TYPE: REHAB | MRP |

Systemwide Track Rehabilitation addresses the following recurring requirements to sufficiently rehabilitate aging infrastructure and growing backlog:

- Rail Grinding: ongoing systemwide program
- Surfacing Program to restore track profiles and cross sections
- Infrastructure study & planning and data collection for condition assessments

Mile Posts: n/a Division: All County: ALL Asset Type: Track

OBJECTIVES 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair 2. (Goal 4: Retain and Grow Ridership) Improve service reliability 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION

Track rehabilitation is identified by the Metrolink Rehabilitation Plan (MRP) and aligns with the combined track & signals maintenance RFP scope and implementation. Rail Grinding and surfacing addresses "rolling contact fatigue" (RCF) resulting in rail life savings. This work also addresses noise concerns and positively impacts ride quality.

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Per FRA CFR 213 standards would require slow orders with potential delays to passenger service.

HOLMANS PROJECT# 2403.00

PROJECT: SYSTEMWIDE TRAIN CONTROL SYSTEMS REHABILITATION

SCOPE TYPE: REHAB | MRP |

Systemwide Train Control Systems Rehabilitation addresses PTC, Centralized Train Control systems and equipment to sufficiently rehabilitate aging infrastructure and growing backlog. See the justification section for discussion on aged assets and standard life. Train Control Back Office:

- 1) DOC/MOC Backup Systems
- 2) Workstations/Laptops
- 3) CAD/BOS/MDM/IC3
- 4) Routers/Switches
- 5) On-Board Train Control Systems
- 6) Software/Hardware for Locomotives & Cab Cars

Mile Posts: n/a Division: All County: ALL Asset Type: Train Control

OBJECTIVES RISKS CAUSING PROJECT DELAY 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair

- 2. (Goal 4: Retain and Grow Ridership) Improve service reliability
- 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost
- 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION RANKING // PROJECT READINESS

Train Control Systems rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes PTC and Centralized train control systems and equipment. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards. Some of the PTC hardware is already 10 years old and some of the design was 5 years earlier than that. The office element consists mainly of computers (servers, field laptops, etc.) that date back to 2011, 2012. Mission critical computers are usually rehabbed every 5 years. Our onboard and wayside cellular systems that were implemented back in 2012 were state of the art 3G systems that will be unsupported and completely sunsetted by the Telco companies at the end of last year.

RISK CREATED BY NON-IMPLEMENTATION If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years.

HOLMANS PROJECT# 2405.00

PROJECT: FACILITIES REHABILITATION

SCOPE TYPE: REHAB | MRP |

Facilities rehabilitation addresses components and subcomponents that support the maintenance of rolling stock and offices for staff duties. Specific work to include:

- Build storage facility for new locomotive battery storage
- Phase 1: MOW health and welfare facilities installation, rehab and utility connections.
- Phase 1: Facilities equipment purchase and replacement
- Pilot a design to automate and install predictive failure notifications for facilities equipment to detect and repair failures before they become impact to rail operation

Mile Posts: NA Division: All County: ALL Asset Type: Facilities

OBJECTIVES 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair 2. (Goal 4: Retain and Grow Ridership) Improve service reliability 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION

Facilities rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes components and subcomponents in use at maintenance facilities, layover facilities, and the Pomona campus. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff, industry standards and regulations.

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Ages of particular assets and components vary within each facility, with a range of conditions that include marginal and poor ratings.

HOLMANS PROJECT# 2406.00

PROJECT: ROLLING STOCK REHABILITATION

SCOPE TYPE: REHAB | MRP |

Rolling Stock rehabilitation addresses the revenue fleet of railcars and cab cars.

Specific work for the FY22 Budget includes rehabilitation of the highest priority HVAC systems and other critical systems on rail car fleet.

Mile Posts: NA Division: All County: ALL Asset Type: Rolling Stock

OBJECTIVES 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair 2. (Goal 4: Retain and Grow Ridership) Improve service reliability 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost

JUSTIFICATION

Rolling Stock rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes Locomotives, Rail Cars and Cab Cars. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards. The useful life for rolling stock is 30 years inclusive of a mid-life overhaul. Many rolling stock assets are past due for their mid-life overhaul.

4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Ages of particular fleets, and components within fleets, vary within the rolling stock asset category, with a range of conditions that include marginal and poor ratings.

HOLMANS PROJECT# 2382.00

PROJECT: SAN GABRIEL SUBDIVISION STRUCTURES REHABILITATION

SCOPE TYPE: REHAB | MRP |

San Gabriel Sub Structures Rehabilitation addresses three major subcomponents to sufficiently rehabilitate aging infrastructure and growing backlog:

- Bridges
- Culverts
- Tunnels

Load rating updates for Bridges on San Gabriel sub and hydrology analysis, design, and replacement of one Railtop bridge based on the current condition of the structure.

Mile Posts: 1.08 - 56.52

Division: San Gabriel County: LA / SB Asset Type: Structures

| OBJECTIVES | RISKS CAUSING PROJECT DELAY |
|---|-----------------------------|
| 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair | |
| 2. (Goal 4: Retain and Grow Ridership) Improve service reliability | |
| 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost | |
| 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents | |

JUSTIFICATION

Structures rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes Bridges, Culverts and Tunnels. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years.

Current Age: 121 Year(s) Standard Lifespan: 100 Year(s)

HOLMANS PROJECT# 2356.00

PROJECT: VALLEY SUBDIVISION TRACK REHABILITATION

SCOPE TYPE: REHAB | MRP |

Valley Sub Track Rehabilitation addresses five major subcomponents to sufficiently rehabilitate aging infrastructure and growing backlog:

- Rail
- Ties
- Crossings
- Special Trackwork
- Ballast

Specific work will include: replacement of 35,000 ft of rail; removal and replacement of four crossings; rehabilitation of two turnouts. All trackwork will bring the existing track conditions up to current Metrolink Standards.

Mile Posts: 3.67 - 76.63

Division: Valley County: LA Asset Type: Track

OBJECTIVES RISKS CAUSING PROJECT DELAY

- 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair
- 2. (Goal 4: Retain and Grow Ridership) Improve service reliability
- 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost
- 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION

Track rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes rail, ties, crossings, special trackwork and ballast. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Per FRA CFR 213 standards would require slow orders with potential delays to passenger service.

HOLMANS PROJECT# 2407.00

PROJECT: LANCASTER CREW BASE REPLACEMENT

SCOPE TYPE: REHAB | MRP |

The Lancaster Crew Base houses train operation crews that serve Los Angeles County. This project will lease parcel and purchase/install new modular building and portable weather resistant communication shelter for train operations and mechanical crews. This is a critical interim solution that bridges the gap until a new Lancaster terminal is in service. The current Antelope Valley Line Capital and Service Improvements Program does not specifically address the crew base in its Lancaster Improvement Project statement of work.

Mile Posts: 76.4 - 76.5 Division: Valley County: LA Asset Type: Facilities

| OBJECTIVES | RISKS CAUSING PROJECT DELAY |
|--|-----------------------------|
| 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair | |
| 2. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost | |
| 3. (Goal 4: Retain and Grow Ridership) Improve service reliability | |
| 4. (Goal 3: Invest in People and Assets) Reduce employee turnover | |
| 5. (Goal 4: Retain and Grow Ridership) Increase system utilization | |

JUSTIFICATION

Building will be purchased. Budget includes furniture. IT equipment will be requested the year property will be ready for occupancy.

Old rental trailer will be demobilized. The small permanent office space can

serve as a security office. This is an interim solution for next 7-15 years until such time as a new Lancaster terminal is developed.

Project has been identified because the asset has fallen below a State of Good Repair and is in need of rehabilitation based on limits set by SCRRA staff and industry standards. The existing Lancaster Crew Base currently has 18 crew members reporting daily. The facility is only large enough to comfortably seat 2 people.

RISK CREATED BY NON-IMPLEMENTATION

If the project is not implemented in full, the remaining projects that are beyond the rehabilitation limits will be added to the backlog in future years. This situation has to be addressed before it escalates into a safety issue. We are required to provide reasonable accommodations for Conductors and Engineers to break and fill out paperwork.

Current Age: 26 Year(s) Standard Lifespan: 30 Year(s)

RANKING // PROJECT READINESS

JUSTIFICATION

Train Control Systems rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes Signal systems, Crossing systems, Communications systems. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

RANKING // PROJECT READINESS

1. Condition of Asset..... Worn

2. System Impact..... High

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years.

PROJECT: ORANGE SUBDIVISION TRACK REHABILITATION

SCOPE TYPE: REHAB | MRP |

Orange Sub Track Rehabilitation addresses five major subcomponents to sufficiently rehabilitate aging infrastructure and growing backlog:

- Rail
- Ties
- Crossings
- Special Trackwork
- Ballast

Specific work will include replacement of 15,000 ties, based on wear, age, condition and historical performance. All trackwork will bring the existing track conditions up to current Metrolink Standards.

Mile Posts: 165.08 - 207.4 Division: Orange County: OC Asset Type: Track

OBJECTIVES 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair 2. (Goal 4: Retain and Grow Ridership) Improve service reliability 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost

JUSTIFICATION

Track rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes rail, ties, crossings, special trackwork and ballast. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Per FRA CFR 213 standards would require slow orders with potential delays to passenger service.

HOLMANS PROJECT# 2377.00

PROJECT: PERRIS VALLEY SUBDIVISION REHABILITATION - CONSTRUCTION PHASE SERVICES

SCOPE TYPE: REHAB | MRP |

Right-of-Way fencing/wall by UCR: Secure the open railroad right-of-way (RR ROW) with block walls and fencing to prevent trespassers and students from UCR using the RR ROW as a shortcut to and from UCR.

Construction Phase for Citrus Retaining Wall & Drainage; Box Springs Drainage

Design phase and partial Construction phase was funded in FY21 budget:

Adopted last year, FY21, were Project 521910 for \$1.8M Design; Project 521920 for \$2.3M Construction phase services for the area between MP 70.7 and MP 70.9. The first 2 projects to be completed in this area will be at CP Citrus with the extension of an existing retaining wall and at MP 70.85 which will add 4-60" RCP across the tracks and perform track side grading and ditching between MP 70.83 and MP 70.9. Work has not yet started, pending FTA grant execution.

The FY22 request for \$1.58M will complete funding of the construction phase for remaining drainage and culvert projects for this area. This is an estimated cost for construction and could change upon completion of final design.

Mile Posts: 65 - 85.4 Division: San Jacinto (PVL) County: RV Asset Type: Structures

OBJECTIVES

- 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair
- 2. (Goal 4: Retain and Grow Ridership) Improve service reliability
- 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost
- 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

RANKING // PROJECT READINESS

RISKS CAUSING PROJECT DELAY

- 1. Condition of Asset..... Worn
- 2. System Impact..... High

Design and partial Construction funded in FY21 budget.

JUSTIFICATION

Due to drainage conditions in the surrounding area surrounding the Box Springs areas of the Perris Valley Line, the newly constructed Perris Valley line is experiencing flooding and erosion issues in specific areas. There is a wall and existing wall at Citrus Avenue that is currently experiencing undermining and the slope is eroding away from the wall which could become a safety issue in the future. The wall will be extended, and grading and drainage improvements will be made to repair the existing erosion and prevent future erosion. During FY19 SCRRA conducted a Hydrology and Hydraulics analysis, and the study identified a need for approximately 15 new or larger culverts through the box springs area. This project will address one of the highest priority areas by installing 4-60" RCP culverts, and performing regrading.

RISK CREATED BY NON-IMPLEMENTATION

If project is not completed the drainage issues along the PVL will continue into the future and possibly cause issues that could result in the need for emergency maintenance and effect Metrolink service.

HOLMANS PROJECT# 2385.00

PROJECT: VENTURA (VC) SUBDIVISION STRUCTURES REHABILITATION

SCOPE TYPE: REHAB | MRP |

Ventura Sub Structures Rehabilitation addresses three major subcomponents to sufficiently rehabilitate aging infrastructure and growing backlog:

- Bridges
- Culverts
- Tunnels

Specific work involves the Arroyo Simi bridge - this request is for \$2.24M to meet the 50% match requirement for expenditures for the Arroyo Simi project.

Mile Posts: 426.4 - 441.24 Division: Ventura - VC County County: VN Asset Type: Structures

OBJECTIVES 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair 2. (Goal 4: Retain and Grow Ridership) Improve service reliability 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION

Structures rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes Bridges, Culverts and Tunnels. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years.

HOLMANS PROJECT# 2358.00

PROJECT: VENTURA (LA) SUBDIVISION TRACK REHABILITATION - FUNDED VIA FRA GRANT

SCOPE TYPE: REHAB | MRP |

Ventura (LA County) Sub Track Rehabilitation addresses five major subcomponents to sufficiently rehabilitate aging infrastructure and growing backlog:

- Rail
- Ties
- Crossings
- Special Trackwork
- Ballast

Specific work involves Tunnel 26 Rehabilitation, tie replacement, ballast replacement, removing of mud, surfacing, and rehab of electrical systems. All trackwork will bring the existing conditions up to current Metrolink Standards.

Mile Posts: 441.24 - 462.39

Division: Ventura - LA County County: LA Asset Type: Track

OBJECTIVES RISKS CAUSING PROJECT DELAY

- 1. (Goal 3: Invest in People and Assets) Maintain State of Good Repair
- 2. (Goal 4: Retain and Grow Ridership) Improve service reliability
- 3. (Goal 2: Maintain Fiscal Sustainability) Reduce operating cost
- 4. (Goal 1: Ensure a Safe Operating Environment) Reduce train accidents

JUSTIFICATION RANKING // PROJECT READINESS

Track rehabilitation identified by the Metrolink Rehabilitation Plan (MRP) includes rail, ties, crossings, special trackwork and ballast. The need has been identified because the assets have fallen below a State of Good Repair and are in need of rehabilitation based on limits set by SCRRA staff and industry standards.

1. Condition of Asset..... Worn

2. System Impact..... High

RISK CREATED BY NON-IMPLEMENTATION

If the program is not implemented in full, the remaining work that is beyond the rehabilitation limits will be added to the backlog in future years. Per FRA CFR 213 standards would require slow orders with potential delays to passenger service.
