**Metrolink launches late-night train service from LA Union Station**

Take advantage, Dodger fans!

If this is the year again – baseball season! And what’s even better than that is our new late-night train service you can enjoy in a bag or without drivers going about dining out.

Metrolink is partnering with the Dodgers and Metrolin, is offering the service on our Antelope Valley, Ventura County and San Bernardino lines during weeknight home games. For funding for this project, Metrolink Quality Management District (AQMD) and Middle Source Air Pollution Rebalance Planning and Review Committee (MPRPRC).

The special service kicked off March 31 and is available on game day weekend nights until your last home game on September 22. Blackout dates are July 4 and May 30 (Memorial Day).

Take the special round-trip service to Anaheim from Dodger Stadium for weeknight home games April 8 through September 28.

Take any Metrolink train to LA Union Station. If you’re going to catch the game, the Dodger Stadium Express bus there and back. The bus service is free to fans who have valid Metrolink tickets. For those who don’t have tickets, the fare is one way $15.

For information on the Dodger Stadium Express bus schedule, please visit losangelesdodgers.com/trains.

Metrolink trains depart from Union Station at 11 pm, so make sure to get your railroad tickets as soon as you can to make it back to the station, to purchase Metrolink tickets, visit our Metrolink ticketing kiosks.

Ticket packages that include Metrolink train and Dodgers tickets start at $20.

During his time at Metrolink, he received a promotion to the position of Coordinator of the customer service and operations. He did his best to ensure that all Metrolink trains operated smoothly and efficiently.

Berger’s job was not easy, but he understood that the railroad is the people and how they interact with each other.

Berger worked at Amtrak for 10 years before joining Metrolink. He retired April 1.

Metrolink has teamed up with OCTA to offer the late-night rail service to our Dodger fans. The service kicks off April 8 and extends through Memorial Day weekend games April 8 through September 22.

Take the special round-trip service to Anaheim from Dodger Stadium for weeknight home games April 8 through September 28.

Riding your way to better health

"The next time you decide to ride the train, consider these benefits with other riders; reduced exposure to pollution generated by driving to work; reduced stress from not having to drive; building friendships with other riders; reduced exposure to pollution generated by personal vehicles; and reduced driving-related conflict situations, disabilities and deaths, according to the KTR report. So the next time you decide to ride the train, consider these benefits. By parking your car farther away from the station, you can save money and cut the environment. You can avoid the traffic and get to computers in 20 minutes and do your daily chores at the train station instead of driving and use the trains instead of elevators or escalators to get to the train platforms.

San Bernardino Railroad Days are right around the corner

The third annual San Bernardino Railroad Days event, sponsored by BNSF, is right around the corner. The two-day event will be held on Saturday, April 16, from 2 to 7 p.m. and Sunday, April 17, from 9 a.m. to 3 p.m. at the San Bernardino Station located at 111 West E Street. The event will feature first-time, country-western music; western-themed food; model railroad trains, antique trains, cars and a host of other railroad-related events. There will be live entertainment, horse-drawn wagons and antique train engines, according to the KTR report. You can make your own trains at the station and have fun discovering how trains work. You can also see the San Bernardino History and Railroad Museum.

MetroLink reflects on Measure M success

The Orange County Transportation Authority, one of the five member agencies that sponsored Measure M, indicated that they had a very successful campaign, according to the KTR report. The Authority held a commemoration event on March 31, 2011, at the Metrolink station in Orange County, to celebrate the success of the Measure M campaign. The event included a tour of the museum, live music, and other activities. The Authority also announced that they would be holding a commemoration event in June to celebrate the success of Measure M.

Orange County cities enhance rail crossings, receive FRA approval to enact quiet zones

If you live in Anaheim or Tustin, you may have noticed that the Orange County cities have implemented several changes to their rail crossings. This has included the installation of new crossing gates, flashing lights, and other safety improvements. The cities have also implemented quiet zones, which will prevent the sound of train horns from being heard in certain areas. These changes have been made in an effort to increase safety and reduce noise pollution. The Orange County Transportation Authority has approved the implementation of these changes for three rail crossings.

Over the years, Measure M has funded other major Metrolink expansion projects as well, including construction of the Anaheim to Fullerton line, the LA Downtown to Orange line, the Santa Fe Depot station and the new Orange County Transportation Center, the KTR report stated. The Authority has also announced that it will be moving forward with the construction of a new Metrolink station in the city of Anaheim.

San Bernardino Railroad Days are right around the corner

The third annual San Bernardino Railroad Days event, sponsored by the city of San Bernardino, will take place on Saturday, April 16, from 10 a.m. to 3 p.m. at Santa Fe Depot, 225 N. Main St., San Bernardino, in partnership with the Southern California Rail Safety Education Committee. The event is free and open to the public.

There will be food, music, railroad memorabilia, antique horse-drawn and vintage railroad equipment, model trains and more. There will be food, music, railroad memorabilia, antique horse-drawn and vintage railroad equipment, model trains and more. This is a great opportunity for rail enthusiasts of all ages to come together to celebrate the history and culture of railroading.

The event will feature a variety of attractions, including a display of railroad artifacts, a model train display, and a chance to see a variety of railroad vehicles. There will also be live music throughout the day.

The event is free and open to the public, and there will be food and beverages available for purchase. Parking is available on site, and there will be accessible restrooms.

For more information, please visit the event’s website at www.sanbernardinorailroaddays.com, or contact the City of San Bernardino at 909-384-3990.
Riding your way to better health

The benefits of riding the train in the morning by bicycling, walking, or even jogging are endless and a positive contribution to your health.

About 7 million U.S. adults are either overweight or obese, according to the Department of Health and Human Services. Being overweight or obese contributes to negative health consequences that include coronary heart disease, Type II diabetes and cancer. So enjoy all types of physical activity—like bicycling or walking—you are employing one of several approaches used to combat being overweight and obese, according to the Center for Disease Control and Prevention. North Americans only average six minutes of daily physical activity. Most people who use public transportation spend a median of 19 minutes walking. The time adult public transit users spend walking to and from the train stops is almost as much time as it takes to provide

Our efforts are being materialized through the upcoming

March 31, 2011, marked the end of Measure M, the 20-year program that made possible Metrolink's continued enhancement of Orange County's rail system. The funding approved by voters will be used to expand Metrolink's existing network, provide additional service and improve stations; construct a four-level, 1,500-space parking structure at the Irvine Transportation Center; and planning for the future implementation of the Go Local program to improve connections from Metrolink stations to surrounding Orange County Transportation Authority, one of the five member agencies that supported Measure M, held a commemoration event March 16, 2011, to prepare the rail system for the future, the use of technology to enhance the overall customer experience. Scheduling guru headsheds Las Vegas service

Metrolink has introduced a new Las Vegas service to improve rider convenience and efficiency.

The new service, which will run from April 1 through April 30, is designed to provide riders with a seamless and efficient travel experience.

Riders can now travel directly from Las Vegas to Los Angeles with up to 20 stopovers in between.

The service will operate on a daily basis, with trains departing Las Vegas at 7 am and 5 pm and arriving in Los Angeles at 10 am and 8 pm, respectively.

This new service is expected to provide significant travel benefits to residents of the Las Vegas area, as well as to visitors and tourists.

The service is also expected to have a positive impact on the local economy, as it will provide a convenient and affordable travel option for those looking to explore Southern California.

Metrolink encourages riders to take advantage of this new service and to plan their travel in advance to ensure a smooth and enjoyable trip.

Meet the faces of Metrolink

Metrolink has introduced a new service to offer special travel opportunities to Angels games.

The service will operate on a daily basis, with trains departing Los Angeles at 10 am and 1 pm and arriving in Las Vegas at 1 pm and 4 pm, respectively.

This new service is expected to provide significant travel benefits to fans of the Los Angeles Angels, as well as to visitors and tourists.

The service is also expected to have a positive impact on the local economy, as it will provide a convenient and affordable travel option for those looking to support their favorite team.

Metrolink encourages fans to take advantage of this new service and to plan their travel in advance to ensure a smooth and enjoyable trip.
Scheduling guru deadheads head home Metrolink has a scheduling guru in charge of creating a schedule that allows over 4,000 trains to operate every day. With the complex schedule, which includes trains operating on different tracks, deadheading a train from one route to another, and managing the trains, the scheduling guru ensures that every train arrives and departs on time.

The challenge of creating a schedule is a complex task that involves coordinating the movement of multiple trains and ensuring that they arrive and depart on time. The scheduling guru must take into account various factors, such as the availability of track space, the capacity of the stations, and the timing of other trains. The job requires a high level of planning and coordination, and the scheduling guru is responsible for ensuring that the trains operate smoothly and efficiently.

The scheduling guru's role is crucial to the operation of Metrolink, and their success in creating a schedule that allows the trains to operate on time is a testament to their skills and expertise. The job of creating a schedule is a complex task that requires a high level of planning and coordination, and the scheduling guru is responsible for ensuring that the trains operate smoothly and efficiently.
